This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE

THE present Part contains the texts of ninety-eight tablets, of which No. 1109 has been published by THOMPSON.

Many of these tablets are broken and most difficult to read, and in such it is often impossible to form a connected text. Again there are as many different handwritings as there were scribes. Hence, there will be many places where scholars may differ from my readings. In the final collation of all the Letter texts, I myself hope to be able to decide the readings of many passages, about which there is, to my mind, still some uncertainty.

I wish especially to acknowledge my obligations to DR. E. WALLIS BUDGE, the Keeper of the Department of Egyptian and Assyrian Antiquities, British Museum, for his courtesy and for the great assistance which he has afforded me in the preparation of these Parts. I am indebted also to the other members of the Department, MESSRS. KING, HALL and HANDCOCK for their unfailing courtesy. To MR. KING and DR. KLAUBER I am also grateful for suggestions as to the reading of several signs.

I wish also to express my appreciation to PROFESSOR HARRY PRATT JUDSON, President of the University of Chicago, for the interest which he has shown in this Series and for the help which he has kindly given me.

Part XII is in preparation.

To my friend PROFESSOR GEORGE FOOT MOORE, of Harvard University, I have the honour to dedicate this volume.
